

Pablo Caballero María

Software Engineer

Name: Pablo Surname: Caballero María

Location: Córdoba, Spain

Email: pablo.caballero@imibic.org

EDUCATION

Computer Engineering Degree (Software Engineer) - University of Seville, Seville, SPAIN

September 2021 - May 2025

Grade point average: **8.53** out of 10 (top **5%** of the class) plus **11** other subjects scoring between **9/10** and **10/10**
Top 4 Spanish universities for Computer Science according to CWTS Leiden Ranking

Honor degree (‘*summa cum laude*’) in **five** subjects: **1)** Computer Structure; **2)** Computer Networks; **3)** Multimedia Signal Processing; **4)** Software Design and Testing; **5)** Software Process and Management.

High school diploma (Modality of sciences) - Saint Victoria High school, Córdoba, SPAIN

September 2019 - May 2021

Grade point average: **9.86** out of 10

POSTGRADUATE EDUCATION

Beijing Institute of Technology, CHINA - *Scholarship*

July 2025

- As part of an academic agreement between the University of Seville and the Beijing Institute of Technology, I was selected to study a program on **Artificial Intelligence** in BIT Zhuhai, where acknowledged professors and professionals from China covered a wide range of topics, from the statistical foundations to state-of-the-art algorithms, receiving a GPA of **97** out of 100

Reina Sofía University Hospital, SPAIN - *Short course*

December 2025

- Short course in neurodegenerative pathology, neuroimmunology and critical care. Focusing on three key areas of neurology: neurodegenerative diseases (such as Dementia, Parkinson's, and ALS), neuroimmunological disorders (specifically Multiple Sclerosis, including its diagnosis, treatment, and patient experience), and basic critical care concepts for neurological patients (airway management, hemodynamic alterations, and cerebral injury control)

RESEARCH ARTICLE

Journal: Applied Sciences (Basel). Impact factor: 2,5 (**first** quartile, order 19th from 114).

Authors: **Caballero-María P,** Caballero-Villarraso J, Arenas-Montes J, Díaz-Cáceres A, Castañeda-Nieto S, Alcalá-Díaz JF, Delgado-Lista J, Rodríguez-Cantalejo F, Pérez-Martínez P, López-Miranda J, Camargo A.

Title: 'Deep Learning Model Approach to Predict Diabetes Type 2 Based on Clinical, Biochemical, and Gut Microbiota Profiles'.

Catalogue information: Category *'Engineering, Multidisciplinary'*. ISSN: 2076-3417. Publishing house MDPI. INDEX: 2025; 15(4):2228. https://doi.org/10.3390/app15042228

EXPERIENCE

Maimonides Biomedical Research Institute of Cordoba (IMIBIC), Cordoba, SPAIN - *Internship / Research technician*

January 2025 - April 2025 / January 2026 - Present

- As part of my university internship, I worked at the Maimonides Institute for Biomedical Research in Córdoba on bioinformatics and biostatistics (RNA Seq, 16s, variant calling, machine learning, data science pipelines, etc.), specifically in the areas of genomics and proteomics, with a strong component of **statistics** and **machine learning**. Then, after graduating, I joined the "Neuroplasticity and oxidative stress" research group to use my statistical and machine learning knowledge to process patient data (clinical, biochemical and surveys) to help understand neurological diseases like Alzheimer, multiple sclerosis and others. I am also part of the 3TR project, the biggest European research project in immunology so far, as part of the Spanish node, focusing on multiple sclerosis and the relationships between biomarkers, drug profiles and PROMs.

GPIC, Seville (SPAIN) - *Network technician*

November 2024

- My role as a network technician, working in the hospital "Virgen de la Macarena" in Seville involved the installation and set-up of the AP infrastructure, ensuring that the whole complex is interconnected, using knowledge of networks and protocols, for wired and wireless connections, in a **critical** system like a hospital.

"Teléfono de la Esperanza", Seville (SPAIN) - *Collaborator*

October 2024 - May 2025

- As part of my final degree project, I collaborated through an agreement with this **NGO** providing free psychological assistance, in order to develop an **Artificial Intelligence** model applicable to this task.

Rajabhat University, Sakon Nakhon (THAILAND)- *Voluntary work as an English teacher*

August 2025

- After the scholarship in China, I moved to Sakon Nakhon, Thailand, where I volunteered in a school, teaching English, Physics and Physical Education, taking care of hundreds of kids on my own, aged from 3 to 16. Apart from classes, I also took management tasks and babysitting in the afternoons.

Happy Faces, Alba Iulia (ROMANIA)- *Voluntary work as a summer camp counsellor*

July 2024 - August 2024

- For two months, I volunteered as a summer camp counsellor in Transylvania, Romania, alongside an international team. The job involved providing round-the-clock care to thousands of children in all kinds of roles.

NA, Rímini (ITALY) - *Babysitter*

July 2023

- I volunteered with an Italian family who provided me with room and board in exchange for taking care of the house, three children, and several animals.

You can read the different volunteer **feedback comments** here.

OTHER QUALIFICATIONS

Languages

Spanish: native language. **English:** official C-2 English certificate from Cambridge University, England (bilingual ability). 145 at Duolingo English Test **French:** intermediate level. **Italian:** intermediate level. **Chinese:** basic language proficiency.

Conferences

Invited as speaker to the "Highlighting talent" conference in the University of Seville (Spain).

(link to the event)

Invited as speaker to 3TR (European public/private research project on immunology) annual meeting in Cagliari (Sardinia, Italy) to present results on multiple sclerosis as part of the Spanish node. (link to the event).

Driving licence

Spanish type B driving license (car driving licence).

Others

- Awarding of a scholarship through a competitive process to attend a summer course at the Beijing Institute of Technology (China).
- Awarding of a scholarship from the Ministry of Education and Vocational Training and the Spanish Foundation for Science and Technology to participate in a summer program in Vigo (Spain), being selected based on a competitive process based on academic record.
- Certificate of participation in the IX Introduction to research "Young researchers" program, organized by several andalusian universities (Spain), being selected based on a competitive process based on academic record.
- Certificate of participation in the XXVI summer program for students with intellectual giftedness, issued by the "Huerta del Rey" center for gifted students (Spain).
- Certificate of participation in the Thales mathematics olympics, issued by the Andalusian Society of Mathematical Education (Spain).
- Certificate of participation in the "Enhancing knowledge and skills in scientific and mathematical operations" as a program coordinator, issued by the Faculty of Science and Engineers of Kasetsart University (Thailand).
- Certificate in Good Clinical Practice (GCP), version E6(R3) issued by International Council for Harmonisation (ICH).
- First place in a writing contest, issued by the Municipal Water Company of Córdoba (Spain).
- Finalist in the "Educaletras de cajamar" writing contest, issued by the director of social and cultural programs from Cajamar bank (Spain).
- 72 hour certificate of participation in a course on "Neurodegenerative pathology, neuroimmunology and critical care", issued by Reina Sofía hospital (Spain).
- 10 hour certificates in 'Work Hazards Prevention' issued by Quirón group.
- 300 hour course certificate in 'Data visualization' issued by FreeCodeCamp.

SKILLS

Highly responsible and mature, I excel at managing work under **pressure** and proactively seek out challenges as opportunities for growth. I am an enthusiastic learner, open to new ideas and perspectives.
